The 3.5 acre Buhman Park lies alongside Redwood creek and provides Browns Valley residents with a place to relax and children the play. The park is across the street from Browns Valley Elementary school and has neighborhood access via Roundhill Circle. This site provide local access to a community separated from other parks by major streets. The creek frontage also provides an interesting opportunity to experience nature.

- Although this park was just improved with a new play area, the community will need to plan to replace it during the planning period
